Reasons for Allowance

1. Amendments and Remarks filed 02 July 2009 have been entered and considered and are found convincing. Applicants have amended independent claim 1 in accordance with examiner's suggestion in the previous Office action to overcome the 35 U.S.C. § 112 ¶2 rejection. Also, Applicants' specification provides support for a "computer-readable medium" in at least page 12 lines 18-22. Furthermore, the ordinarily-skilled artisan would readily appreciate how to use the claimed "computer-readable medium" in accordance with claim 1. Therefore, the previously outstanding 35 U.S.C. § 112 ¶1 rejections are overcome. No outstanding objections or rejections remain.
2. Claims 1-14 are allowed. The following is a statement of reasons for the indication of allowable subject matter: The prior art of record fails to fairly teach or suggest the limitations of: automatic mapping a 3-D Surface Model onto the surface of an object of interest in a 3-D image, for estimating a model-based 3-D segmentation surface, comprising visualizing means (60) and further comprising: means of interactive adaptation (20) of the segmentation surface to the actual surface of the object of interest including: means of interactive selection (40) of a 2D data plane (DP) that intersects the 3-D segmentation surface along a 2-D Model Curve (MC), and means of further automatically adapting the 3D segmentation surface within a neighborhood of the interactively adapted Aberrant Curve (emphasis added). It is the automated nature of the present claimed invention combined with use of the Aberrant Curve of the Model Curve that helps distinguish over the cited prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
